

Occomeia Organic Facial Cleanser

From Occomeia

Effective Foaming Cleanser

Product Spotlight

Product review by Rose of all natural beauty

As a teenager and young adult, I had oily skin and often had a breakout or two on my face. During that time, there were studies stating that those people who had mixed origins, caucasian/asian, might be prone to acneic conditions. I would try all kinds of products and combinations, there of. It usually didn't make too much of a difference; I would still break out here and there. I believe now days, products can make a difference, especially products like Occomeia.

Just recently, Sharon asked me to try Occomeia. I received an Occomeia cleanser with an accompanying pamphlet, describing their products. I loved the presentation of the pamphlet and loved the fact that this cleanser was 100% organic.

I immediately tried this foaming cleanser. This gentle skin cleanser can be used daily and has a wonderful, fresh

scent. It has a nice texture and leaves your skin feeling very clean and pure. The Occomeia cleanser helps and treats breakouts. Where was this cleanser when I was younger? I think all age groups can use this nourishing cleanser. The Occomeia cleanser is strong enough to cleanse a teenager's skin as well as gentle enough for a mature skin. Still to this day, I will have an occasional pimple. I believe Occomeia cleanser will help my skin look and feel its best, year after year.

I believe this product will promote healthy skin due to its natural and organic ingredients. Just as you are what you eat; your skin is only as healthy as the natural and beautiful products that you put on your skin.

I am excited about trying other Occomeia products. I highly recommend using Occomeia products for the promotion of clear, healthy and glowing skin.
